# DIGISMA RT COLLECTION

Product Catalogue

Integra Systems, established in 1991, is a 100% Australian-owned industrial product design and advanced manufacturing enterprise in Melbourne's North, centered around light metal. With a motto to 'Make Your Vision Real', Integra turns customer concepts into fully resolved designs that can then be produced in Integra's advanced facility.

Our depth of knowledge in product development, circularity and market dynamics means we've become an incubation hub for inspirational ideas transformed into performance and circular-focused products. So, we decided to create our own collection of innovations designed to enhance business performance under our proprietary division - Integra TransForm. The **DigiSMART** products form part of this range.

Whether you are looking to fully automate your manufacturing processes or provide a digital option to interact with consumers, we can work with you to create a fully customisable kiosk solution.

#### CUSTOMISABLE

We pride ourselves in being part of a new breed of nimble Australian manufacturers, offering the option to customise our standard range of products.

#### CIRCULAR

We are passionate about an integrated approach to sustainability. Our world-class advanced manufacturing centres around the principles of the circular economy.

#### AUSTRALIAN-MADE

Our team embodies leadership and commitment, and bears the responsibility for establishing, implementing, integrating and maintaining our ISO 9001 Quality Management System.

# INTERACTIVE KIOSK

## Fully Customisable Interactive Kiosk

Digital interactive wall, floor or bench mounted kiosks offer a fully customisable digital touchscreen or touchless kiosk solution. We can work with you to create a custom solution that provides a digital option to interact with consumers and clients.

## APPLICATIONS

**Virtual concierge:** an easy-to-navigate self-service format for users to receive information and access services

**Ticketing:** users can choose, purchase and print out tickets directly from the kiosk

**Check-in:** allow users to check-in once they arrive to the premises

**Wayfinding:** allow users to navigate to their desired destination

## FEATURES

- Stainless steel or powdercoated
- Customised signage with vinyl or laser-cut
- Available in customised sizes
- Sturdy and durable
- Wide range of colours to choose from
- Software allows for future growth

# DIGITAL ADVERTISING KIOSK

## Fully Customisable Digital Advertising Kiosk

Tailored to your needs through customisable software and hardware. These wall, floor or bench mounted advertising kiosks are designed for dynamic video ads for both indoor and outdoor environments.
