WORKSMART COLLECTION

Product Catalogue

Integra Systems, established in 1991, is a 100% Australian-owned industrial product design and advanced manufacturing enterprise in Melbourne's North, centered around light metal. With a motto to 'Make Your Vision Real', Integra turns customer concepts into fully resolved designs that can then be produced in Integra's advanced facility.

Our depth of knowledge in product development, circularity and market dynamics means we've become an incubation hub for inspirational ideas transformed into performance and circular-focused products. So, we decided to create our own collection of innovations designed to enhance business performance under our proprietary division - Integra TransForm. The **WorkSMART** products form part of this range.

Whether you are working from home, in the office or within an industrial setting, the ergonomic designs of WorkSMART empower you with more advanced, healthier practices for completing daily tasks.

CUSTOMISABLE

We pride ourselves in being part of a new breed of nimble Australian manufacturers, offering the option to customise our standard range of products.

CIRCULAR

We are passionate about an integrated approach to sustainability. Our world-class advanced manufacturing centres around the principles of the circular economy.

AUSTRALIAN-MADE

Our team embodies leadership and commitment, and bears the responsibility for establishing, implementing, integrating and maintaining our ISO 9001 Quality Management System.

THE AEROSMART PRO

Electric Height-Adjustable Workstation

STAND UP FOR YOUR HEALTH

Smooth and quiet height-adjustability at the press of a button, the **AeroSMART Pro** is made from Australian steel and manufactured with advanced Industry 4.0 technology at Integra Systems.

MOTOR

- World-class electronics by LINAK
- Dual linear actuator
- PIEZO™ controlled anti-collision technology
- Count calories and be alerted to stand
- 4 pre-set memory heights control box

HEIGHT RANGE

Minimum: 625mm lowered
Maximum: 1290mm raised

LOAD

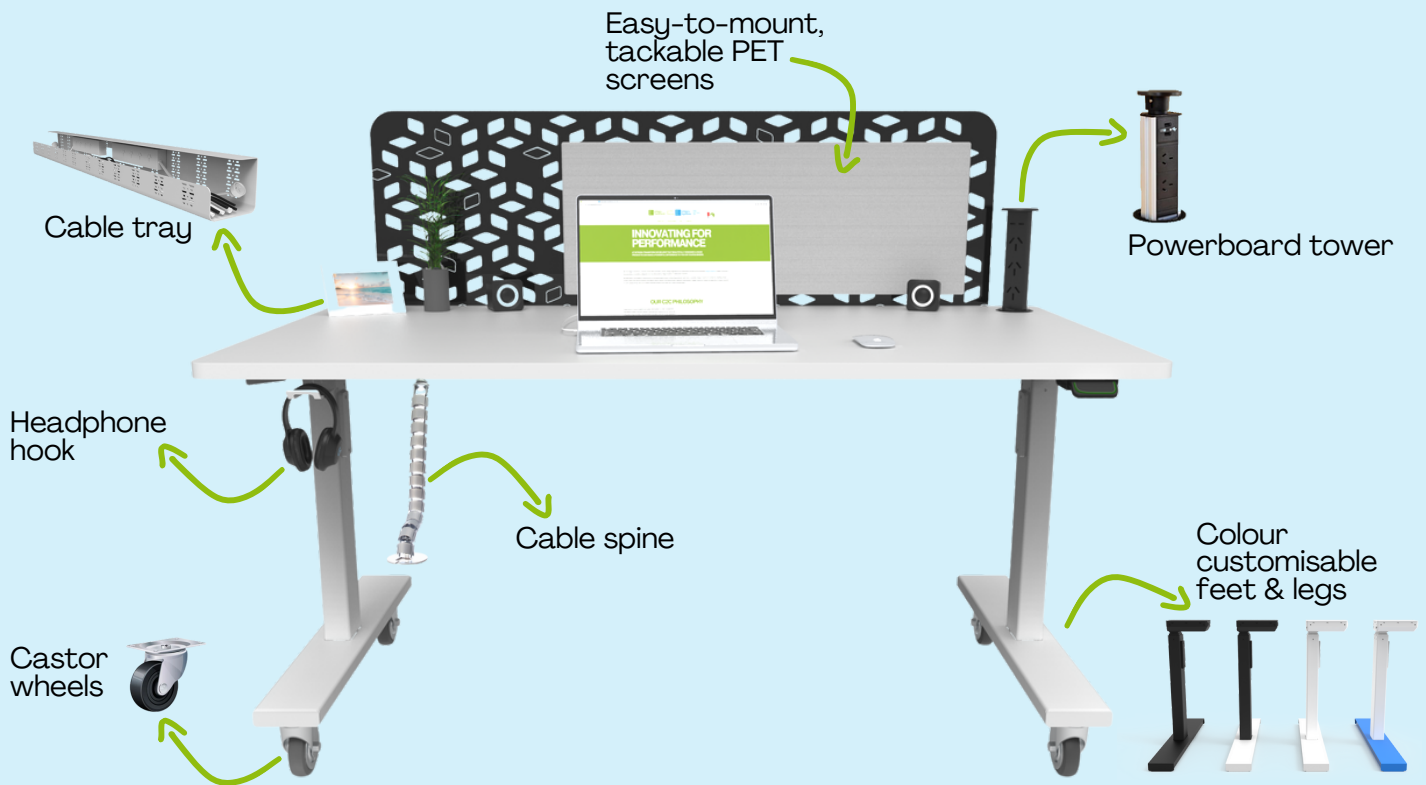

Max loading: 120kg
Assembled weight: 60kg

Available in a range of sizes, colours and top options

ADD-ONS & UPGRADES

PRIVACY SCREENS

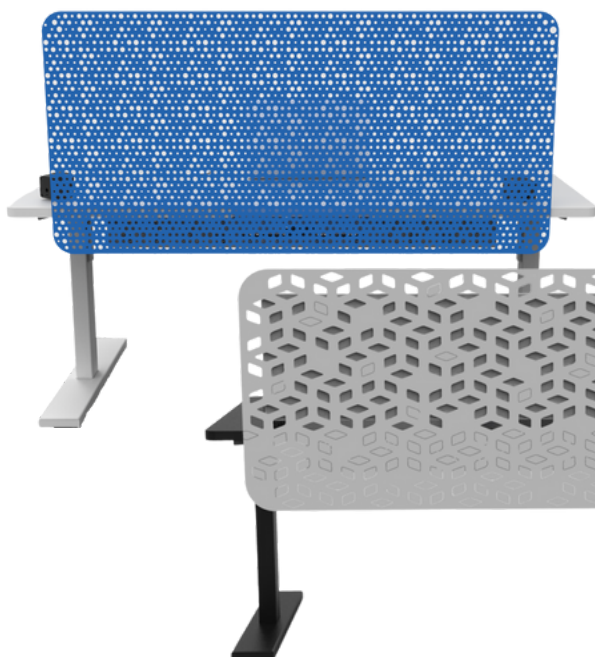

The AeroSMART Pro Privacy Screens have been carefully punched to achieve a smart design. Created from Australian powdercoated steel and available in various sizes, colours and patterns.

SIZES

Curved: H900mm
